

Fabio Kim

Toronto, ON, Canada • fabio.kim@skillswave.com • linkedin.com/in/fabio-kim

SUMMARY

Full-stack software developer with 5+ years of experience building cloud-native web applications in the EdTech industry. Specialized in serverless architectures on AWS, modern frontend frameworks (Lit, React), and accessible, internationalized UI development. Currently building SkillsWave, a corporate learning platform that helps employees leverage employer-sponsored education benefits.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL, C#, HTML, CSS

Frameworks: Lit, Node.js, Koa.js, React.js, ASP.NET Core, MobX, Serverless Framework

Cloud / Infra: AWS (Lambda, DynamoDB, OpenSearch, S3, CloudFront, SQS), Terraform, Docker, Kubernetes, Ansible

Tools: Git, GitHub Actions, Stripe API, Auth0, SAML SSO, Playwright, Mocha, Agile / Scrum

PROFESSIONAL EXPERIENCE

SkillsWave

Remote

Software Developer II

May 2025 – Present

- Build and maintain a serverless corporate learning platform on AWS Lambda, DynamoDB, OpenSearch, S3/CloudFront
- Develop full-stack features with Lit Element web components, MobX state management, and Koa.js REST APIs
- Implement Stripe payment processing for employer-sponsored education benefit programs across tenants
- Deliver accessible, internationalized UI (EN/FR/ES) with automated axe testing and visual regression
- Manage Terraform IaC modules and CI/CD pipelines via GitHub Actions and Serverless Framework
- Design event-driven task pipelines and OpenSearch indexing for real-time search across platform data

Software Developer

Jul 2024 – May 2025

- Built Auth0 and SAML SSO authentication flows; integrated multi-tenant config and role-based access control
- Authored comprehensive test suites: unit (Mocha/esmock), integration, E2E (Playwright), visual regression
- Designed DynamoDB schemas with GSIs and OpenSearch indexing to support complex query patterns

D2L

Kitchener, ON / Remote

Software Developer – Wave Engineering

Jun 2024 – Jul 2024

- Led platform migration during D2L Wave spinout into the independent SkillsWave product

Web Developer II

Nov 2021 – Jun 2024

- Built and deployed full-stack cloud applications for the Brightspace LMS using Lit and AWS Serverless
- Built reusable, accessible web components integrated across the Brightspace learning ecosystem

Courseware Developer / Multimedia Developer (Co-op)

Sep 2020 – Nov 2021

- Developed interactive, accessible learning objects and content tooling for the Brightspace platform

CHUNGDAHM Learning

Seoul, South Korea

Manager / Curriculum Developer / Instructor

Jan 2015 – May 2019

- Managed branch operations and team of instructors; designed and delivered English curriculum for elementary/intermediate learners over 4+ years

PERSONAL PROJECTS

smarththings-discord-bot *(Python, Docker)*

- Monitors a Samsung SmartThings range and sends Discord alerts with snooze controls when the stove or oven is left on too long

tapo-catfood-monitor *(Python, Docker, Gemini AI)*

- Discord bot that monitors cat food levels using a Tapo camera and Google Gemini AI for image recognition

EDUCATION

University of Toronto — Bachelor of Arts, Philosophy

York University — Certificate in DevOps (2023) | Kubernetes, AWS, Docker, Terraform
